

**TECHNICAL DATASHEET**

**HD - Absolute Encoder AR 62/63**

- Single- and Multi turn: Resolution up to 28 Bit
- Wearless electronic multi turn: contact -and battery less, self-energetic
- 300 N axial and radial load
- 200 g shock resistance/ 20 g vibration resistance
- Submersible: Protection class up to IP69K
- High temperature range: -40 ... +100 °C
- Compact design: 32 mm mounting depth
- Option: Stainless steel housing
- Suitable for maritime applications (DNV approved)
- CANopen interface with E1 approval for vehicle application
- Analog interface: absolute measurement over several revolutions; Measuring range in Degrees or number of Revolutions; Current or voltage output

**HEAVY DUTY ACURO®-XRobust**

**GENERAL INFORMATION**

**AR62/ 63 - THE ROBUST ENCODER FOR ALL ENVIRONMENTAL CONDITIONS !**

The special features of the AR62/ 63 not only comprise its particularly rugged enclosure, but also generously dimensioned, rigid ball-bearings. Capable of withstanding even high axial and radial loads on its shaft axis, this encoder type easily achieves a mechanical life of 10<sup>9</sup> rotations at a permanent radial load of 300 N and simultaneously, an axial load of 300N.

The AR62/ 63 was designed to easily withstands highest accelerations, extreme climatic fluctuations and even underwater operation. In this way, our rugged absolute encoder is ideally suitable for applications in wind farms, marine or utility vehicle applications, as well as for use in presses or wood and stone processing machinery: applications where high resistance to harsh environments and maximum reliability are required at the same time.

The AR62 is electrically compatible with standard industrial drives. Available interfaces are BiSS / SSI, CANopen and Analog (0 ... 10 V or 4 ... 20 mA).

Single turn resolution is 12 bit, i.e. one revolution (360°) is resolved into 4096 measuring steps. The AR62/63 comes with a breakthrough multiturn technology, that provides a unique set of advantages:

it operates contact less, self energetic, without battery and moving parts. Standard multi turn resolution is 16 Bit

With an installed depth of only 32 mm, this encoder is the most compact type in its class. Valuable space has been saved - to the benefit of the overall machinery design.

Fields of application that clearly unfold the benefits of ACURO-XR:

- Construction machinery
- Utility vehicles / trucks
- Gantry cranes
- Marine equipment
- Offshore plants
- Wind power plants
- Commercial solar plants
- Food & Beverage Industry
- Filling plants
- Presses
- Your individual application

**TECHNICAL DATASHEET**

**HD - Absolute Encoder AR 62/63**

**ORDERING INFORMATION**  
Selection of cable length

Versions with cable outlet (connection A, B, E or F) are available with various lengths of cable. To order your desired cable length, please add the respective code to the end of your ordering code. For variants with connector on cable end please add cable length code in between. Further cable lengths on request.

Code	Cable length
without code	1,5m
-D0	3 m
-F0	5 m
-K0	10 m
-P0	15 m
-U0	20 m
-V0	25 m

Example:

Cable with 3 m length: ... B - D0

Cable with 3 m length and M23 connector, cw: ... B - D0 - I

**TECHNICAL DATASHEET**

**HD - Absolute Encoder AR 62/63**

**OUTPUT SIGNALS**

Measuring range in degrees (>0° to 360°)

Measuring range 360°

Measuring range 180°

Measuring range 90°

**OUTPUT SIGNALS**

Measuring range in degrees (>360°) or Measuring range in revolutions

*Default Setting: Output signal rotation cw (clockwise) with a view to the shaft.*
